

SPELLING IS THE BASIS OF LANGUAGE.

SPELL improves many skills – at least 4 games in 1!

SPELL incorporates spelling and maths through sorting objects by size and/or colour and seeing patterns.

SPELL increases competence, co-operation, social skills and nurtures self-esteem as children discover how good they can be at spelling.

The rules of SPELL are simple, the variety of games can stretch all levels of ability in a fun and entertaining way.

An ideal family game to encourage quality time and conversation!

SPELL is a unique, interesting and exciting word game which can be enjoyed by both adults and children. I have also used it with great success in the classroom to foster cooperative learning and as a useful tool to stimulate vocabulary development in both mainstream classrooms as well as with students who have an ESL background.

~ Jane Belotti, Primary and High School Teacher

Thank you for letting my students trial SPELL. It will certainly become an integral part of my future teaching of spelling.
